

Help researchers at UBC understand and improve recovery after Cesarean birth through digital surveys

Are you age 19+, and planning to have a C-section (or had a C-section within the past week)? Please participate in this research study and help us learn about your recovery journey through surveys.

- 1.5 hours total, over the first year postpartum
- \$25 gift card honorarium

Do you identify as a member of the Indigenous, ethnic minority, LGBTQ, and/or rural communities? It would be particularly helpful to learn from you.
